

PROGRAMME

Tuesday 9th May 2023

Venue: The Golden Jubilee Hotel

17:00	Arrival at the Golden Jubilee Hotel and Conference Center
17:00-17:10	Welcome; Lars Køber, John McMurray, Christian Aalkjær
Session 1	Welcome - Hot off the press - what's new, what's in the pipeline and what's planned? - student presentations Chairs: Ross Campbell and Peter Søgaard
17:10-18:00	1-minute-1-slide poster pitch
	Mariam Elmegaard Malik ; Initiation of SGLT2-inhibitors and GLP1-RA according to frailty
	Shingo Matsumoto ; Calcium channel blocker in patients with heart failure and mildly reduced or reduced ejection fraction
	Atefeh Talebi ; Prediction of cardiovascular events from systolic or diastolic blood pressure: A Danish study
	Toru Kondo ; Predicting stroke in heart failure and preserved ejection fraction without atrial fibrillation; Patient characteristics, outcomes, and effects of dapagliflozin according to the duration of heart failure: A prespecified analysis of the DELIVER trial Efficacy of dapagliflozin according to heart rate in patients with heart failure: A patient-level pooled analysis of DAPA-HF and DELIVER
	Mingming Yang ; Geographical variation in patient characteristics and outcomes in HFpEF - and - Knowledge about self-efficacy and outcomes in patients with heart failure and reduced ejection fraction
	Claire Glen ; Cardiotoxicity of BRAF and MEK Inhibitors in Patients with Melanoma: A Real-World Longitudinal Study Incorporating Contemporary Definitions and Risk Scores
	Jesper Jensen ; Treatment of Heart Failure in Primary Care - Room for Improvement?
	Kristoffer Berg-Hansen ; Treatment With Ketone Ester in Patients with Cardiogenic Shock Improves Cardiac Performance
	Kirsty McDowell ; Circulating vascular cell adhesion molecule is an independent predictor of adverse outcomes in HFrEF: findings from DAPA-HF
	Casper Homilius ; Acidosis inhibits K ⁺ -induced relaxation of rat coronary but not cerebral arteries
	Johan Larsson ; Screening for advanced heart failure in stable outpatients
	Kasper Høftoft Bengtson ; Staphylococcus aureus bacteremia in Danish patients with cardiac implantable electronic devices; an explorative epidemiological study
	Anders Hostrup Larsen ; Metformin in HFrEF: mechanisms and kinetics
	Stephen Rankin ; Cardiovascular exclusion criteria and adverse event reporting in combination trials of immune checkpoint inhibitors and VEGF-signalling pathway inhibitors: a systematic review
	Simone Solano ; Are antidepressants safe in patients with heart failure?
	Joanna Osamanka ; A novel, small-volume subcutaneous furosemide formulation delivered by an abdominal patch infusor device in patients with heart failure: results of two phase I studies
18:00-19:00	poster walk and pre dinner drinks
19:00	Dinner at the Jubilee

Wednesday 10th May 2023

Venue: University of Glasgow

08:30	Bus to Campus
Session 2	Great debate: Revascularization for coronary artery disease in heart failure Chairs: Mark Petrie and Lars Køber
09:00-09:25	Pro: Patients with HFREF and significant epicardial coronary artery disease should undergo coronary revascularization : Henrik Saabye Wiggers
09:25-9:50	Con: Patients with HFREF and significant epicardial coronary artery disease should undergo coronary revascularization: John Cleland
9:50-10:20	Discussion/debate on topic
Coffee break	
Session 3	Guest lecture and related abstracts Chairs: Pardeep Jhund and Morten Schou
10:30-11:00	What is HFpEF and how will we treat it in the future? Professor Christopher Miller, University of Manchester
11:00-11:15	Discussion
11:15-11:30	Prediction model in HFPEF Kirsty McDowell
11:30-11:45	Student talk TBA
11:45-13:30	Walk to old campus, Lunch
Session 4	How do our newest pharmacological therapies for heart failure work? Chairs: John McMurray and Lars Køber
13:30-14:00	Neprilysin inhibition John McMurray
14:00-14:15	What are the indications for neprilysin treatment in DK Lars Køber
14:15-14:30	Discussion/debate on topic
Coffee break	
14:45-15:15	SGLT2 inhibitors Matthew Lee & Mark Petrie
15:15-15:45	SGLT2 Treatment experiences Morten Skou & Massar Omar
15:45-16:30	PRO et CON discussion SGLT2 in HFpEF CON: Lars Køber and Mark Petrie PRO: John McMurray and Morten Schou
Coffee break	
Session 5	Cardio-oncology Chair: Peter Søgaard and Marc Petri
16:15-16:35	New tumour treatments: Good for beating cancer but bad for the cardiovascular system Ninian Lang
16:35 - 16:55	Heart failure and cardiotoxicity Jan Walter Dhillon Shanmuganathan
16:55-17:15	Cardiotoxic effects of angiogenesis inhibitors Stephen Dobbins
17:15 - 17:45	Discussion
18:00-21:30	Drinks and dinner at the restaurant; Ubiquitous Chip

Thursday 11th May 2023

Venue: The Golden Jubilee Hotel

08:30	Welcome
Session 6	Clinical trials Chair: Lars Køber
08:30-9:00	Coronary microvascular disease – important in heart failure too? Colin Berry
9:00-9:30	Cardiac mechanics in heart failure - Peter Søgaard
9:30-10:00	Q&A
Coffee break	
Session 7	New ideas in treatment Chairs: John Cleland and Henrik Saabye Wiggers
10:15-10:45	Limitations of device trials in advanced heart failure Finn Gustafsson
10:45-11:15	New analytical approaches in clinical trials Pardeep Jhund and Toru Kondo
11:15-11:45	Q&A
12:00-13:00	Networking Lunch
Session 8	Ongoing trials Chair: Pardeep Jhund and Morten Schou
14:00-14:15	The Danish DANHEART study Henrik Wiggers
14:15-14:30	Ongoing trials in heart failure John McMurray
14:30	Closing Remarks

List of participants:

Anders Hostrup Larsen; Aarhus University Hospital
Atefeh Talebi; Glasgow University-Clinical Trials Medical Statistician
Casper Homilius; Aarhus University
Christine Andreasen; Steno Diabetes Center Copenhagen
Christopher Miller; University of Manchester
Claire Glen; University of Glasgow
Colin Berry; University of Glasgow
Daniel Doherty; University of Glasgow
Daniel Taylor-Sweet; Glasgow University
Deewa Zahir Anjum; University of Copenhagen/Gentofte Hospital
Finn Gustafsson; Rigshospitalet
Jaclyn Carberry; University of Glasgow
James Curtain; University of Glasgow
Jan Walter Dhillon Shanmuganathan; Aalborg University Hospital
Jawad Haider Butt; Copenhagen University Hospital
Jesper Jensen; Herlev-Gentofte / Rigshospitalet
Joanna Osmanska; University of Glasgow
Johan Larsson; Rigshospitalet
John Cleland; University of Glasgow
Kasper Høft Bengtsen; Zealand University Hospital, Roskilde
Katriona Brooksbank; University of Glasgow
Kirsty McDowell; University of Glasgow
Kristoffer Berg-Hansen; Aarhus University Hospital
Mariam Elmegaard Malik; Herlev-Gentofte University Hospital
Maria Lukács Krogage; Aalborg University Hospital
Mark Petri; University of Glasgow
Massar Omar; Odense University Hospital
Matthew Lee; University of Glasgow
Mingming Yang; University of Glasgow
Morten Schou; Rigshospitalet, UCPH
Nina Nouhravesh; Herlev-Gentofte Hospital
Ninian Lang; University of Glasgow
Pardeep Jhund; University of Glasgow
Roni Nielsen; Aarhus University Hospital
Ross Campell; University of Glasgow
Sharmistha Datta Gupta; University of Glasgow
Shaun Theodor Florentz Sødergren; Emergency Medical Services, Capital Region of Denmark
Shingo Matsumoto; Glasgow University
Shivasankar Murugan Sukumar; University of Glasgow
Simone Solano; University of Glasgow
Stephen Rankin; University of Glasgow
Stephen Dobbin; University of Glasgow
Tania Deis; Rigshospitalet
Toru Kondo; University of Glasgow

Organizing Committee

Lars Køber; Rigshospitalet, UCPH
John McMurray; University of Glasgow
Peter Sjøgaard; Aalborg University Hospital
Henrik Wiggers; Aarhus University Hospital
Christian Aalkjær; Danish Cardiovascular Academy
Emil Brøndum; Danish Cardiovascular Academy
