

# The 22<sup>nd</sup> Integrative Human **Cardiovascular Control Course**

Date: 19-23 May, 2025

14:15 - 16:15 Student presentations: 3x3 pitches

Venue: Danske Studenters Roklub & Copenhagen University Hospitals

Monday, 19 May

Dansk	te Studenters Roklub (DSR) - Strandvænget 55, 2100 Copenhagen, 1 <sup>st</sup> floor
Session I Grand opening Moderator: Damian Bailey	
08:25	Welcome and introduction to the program
08:35	Meet and greet
09:20	Cardiovascular Conundrum - Introduction to the course Associate Professor, James A. Pawelczyk, Penn State University, USA
10:05	My 25-year path of studying burn survivors: an introduction to hypothesis-driven research Professor Craig Crandall, UT Southwestern Medical Center, USA
10:15	Coffee Break
11:00	<b>Heart function in animals - the adaptive nature of physiology in animal and man</b> Professor Tobias Wang, Aarhus University, DK
11:45	ECG and Purkinje fibers in mammals Associate Professor Morten Bækgaard Thomsen, University of Copenhagen, DK
12:30	Embedding research in clinical practice Professor Anders Perner, Copenhagen University Hospitals - Rigshospitalet, DK
13:30	Lunch
on II	Student Presentations
14:15	Introduction to a pig model for assessing the risk of atrial fibrillation in an obstructive sleep apnea PhD Student Julie Norup Hertel, University of Copenhagen, DK
	08:25  08:35  09:20  10:05  11:00  11:45  12:30  13:30  Dn II

## Tuesday, 20 May

Venue: Danske Studenters Roklub (DSR) - Strandvænget 55, 2100 Copenhagen, 1<sup>st</sup> floor

Session III		Exploring cardiovascular regulation and adaptation – In Motion, In Balance, In Sight Symposium moderated by Jakob Solgaard Jensen	
)8:25	- 08:3	Welcome - Intro to the day	
)8:35	- 09:0	Blood pressure regulation in adolescents born after assisted reproductive technologies PhD Student Jakob Solgaard Jensen, Copenhagen University Hospitals - Rigshospitalet, DK	
9:05	- 09:50	Translational research primer. Understanding hypertension through animal and human investigation Professor Scott Smith, UT Southwestern Medical Center, USA	
9:50	- 10:3	Sympathetic activity and methods to assess sympathetic nerve activity  Professor Paul Fadel, University of Texas at Arlington, USA	
10:35	- 10:5	5 Coffee Break	
10:55	- 11:40	The exercise pressor reflex - interaction between cardiac output and muscle metabolism and blood flow Associate Professor James Fisher, The University of Auckland, NZ	
11:40	- 12:2	Impact of age, sex-hormones, and physical activity on vascular function.  Professor YIva Hellsten, University of Copenhagen, DK	
12:25	- 13:2	5 Lunch	
Ses	sion IV		
13:25	- 14:10	Evaluation of cardiac adaptations to endurance training. Associate Professor, Katarina Steding-Ehrenborg, Lund University, SE	
4:10	- 15:00	MRI evaluation of cardiac function and myocardial perfusion.  Consultant Per Lav Madsen, Copenhagen University Hospitals - Herlev and Gentofte, DK	
5:00	- 18:00	Networking and reception	
8:00	- 20:00	) Social dinner at the venue	

## Wednesday, 21 May

Venue: Frederiksberg Campus, Room: Gris, Dyrlægevej 68, Frederiksberg C & August Krogh Institute, Room: Ultralyd, Universitetsparken 13, København

Session V	Demonstrations in groups		
)8:15 - 11:00	<b>Group I - Frederiksberg Campus</b> Demonstration. Animal model	<b>Group II - August Krogh Institute</b> Demonstration. Ultrasound assessment in human	
11:30 - 12:30	Lunch (at the Roklub)		
Session VI	Special circulations I - Central blood flow Moderator: Per Lav Madsen		
12:30 - 12:40	Welcome (back!) - setting the frame		
12:40 - 13:25	Role of mitochondrial respiration on lactate release in experimentally-induced sepsis Postdoc. Hannah Caldwell, University of Copenhagen, DK		
13:25 - 14:10	Measuring Cardiac Function at Rest and Duri Postdoc. Mads Fischer, University of Copenha		
14:10 - 14:30	Break		
14:30 - 15:15	The Forgotten Circulation - Lymphatics in her Postdoc. Benjamin Kelly, Copenhagen Univer		
Evening	Free time		

## Thursday, 22 May

Venue: Frederiksberg Campus, Room: Gris, Dyrlægevej 68, Frederiksberg C & August Krogh Institute, Room: Ultralyd, Universitetsparken 13, København

Session VII	Demonstrations in groups	
08:15 - 11:00	Group I - August Krogh Institute  Demonstration. Ultrasound assessment in human  Group II - Frederiksberg Campus  Demonstration. Animal model	
11:30 - 12:30	Lunch (at the Roklub)	
Session VIII	Special circulations II – Peripheral blood flow Moderator: James Fisher	
12:30 - 12:40	Welcome (back!) - setting the frame	
12:40 - 13:25	Cerebral and leg blood flow during exercise - influence of dehydration and hyperthermia Professor José González-Alonso, Brunel University of London, UK	
13:25 - 14:10	Why the brain needs oxygen and gravity; a (free) radical perspective.  Professor Damien Bailey, University of South Wales, UK	
14:10 - 14:30	Break	
14:30 - 15:15	Quantification of dynamic cerebral autoregulation: Welcome to the jungle! Professor Patrice Brassard, Université Laval, CA	
15:15 - 16:00	Endothelia function and coagulation in health and disease Professor Jakob Stensballe, University of Copenhagen, DK	
16:00 - 16:30	Experimental Physiology's Young Investigator Prize	
18:00 - 21:30	Celebratory dinner at restaurant Flakfortet By boat from Nyhavn (Address TBA)	

## Friday, 23 May

Venue: Danske Studenters Roklub (DSR) - Strandvaenget 55, 2100 Copenhagen, 1<sup>st</sup> floor

Session IX	Special issues and summing up Moderator: Mads Fischer
09:00 - 09:15	Welcome - setting the stage
09:15 - 10:00	Determination of cardiac output at rest and during exercise Professor Johannes Van Lieshout, Amsterdam UMC, NL
10:00 - 10:45	Preparing the circulation for surgery Professor Nicolai Bang Foss, Copenhagen University Hospitals - Hvidovre, DK
10:45 - 11:10	Coffee break
11:10 - 11:55	The cardiovascular conundrum of orthostatic intolerance following spaceflight Associate Professor James A. Pawelczyk, Penn State University, USA
11:55 - 13:00	Lunch
13:00 - 13:45	From academia to pharma: My epic journey of transformation and how pharma's regulatory fire ignites scientific brilliance.  Associate Director Peter Bonde Ernst-Rasmussen, Genmab, DK
13:45 - 14:30	What to look for in, as well as being, an excellent mentor: two sides of the same coin Professor Craig Crandall, UT Southwestern Medical Center, USA
14:30 - 15:15	Evaluation: Integrative cardiovascular aspects, questions, and discussion of topics from the week
